Bike Helmet Procedure

**POLICY/APPROACH:**

Children will be protected from possible head injuries while riding tricycles, bicycles or riding in wagons or other wheeled play equipment at Head Start and Early Head Start through the use of helmets.

**PROCEDURE:**

1. Site Managers will ensure that each center they supervise has enough appropriately sized bicycle safety helmets for each child riding on or in any wheeled, play equipment (tricycles, two-wheeled bicycles, wagons, etc.).

2. Center Staff supervising child play activities will ensure children are properly wearing child bike helmets when riding on or in any wheeled play equipment (tricycles, two-wheeled bicycles, wagons, etc.).

3. Center staff will ensure helmets are in good condition, clean, and appropriately disinfected.
